World Championships 2007

Wayne Lally states that to date there are four of our members who intend to ride in the World Cycling Championships at St. Johann, Austria in August 2007. Others thinking of riding might like to speak to Wayne or Denis Robinson. August is also the month when the International Cycling Federation holds its world titles in Belgium – something that might appeal before riding in Austria. Remember, that for non-UCI events you can obtain insurance cover for designated races (but not training) when abroad. For information on this and on how to get cover for racing in Belgium speak to the Secretary.

Race Results

16 July, Grad Scratch Races, Mt. Helena

Another beautiful day – a little fresh but with lots of sunshine and obvious the winter blues resulted in only a smallish turnout of 47 riders. 'D' grade was particularly thin on the ground with six nominations including one visiting rider who mysteriously disappeared before the start!

'A' grade was well represented with 11 riders who moved around the 20km circuit in 32m 30s on each of the first two laps, and half-a-minute quicker on laps three and four. All were together as they heard the bell and there must have been some sharp attacks around the course for the group had stretched by the time they came around to the finishing flag. On the uphill finish it was Eric Cox who showed a clean pair of heels, arriving some 10metres ahead of George Miller who was another 10metres ahead of Paul Moke, Dave Berglund and most of the group.

With one lap less to ride than 'A' it was surmised that 'B' grade would have put in lots of effort from the word go. However, the first lap was worked at a not too impressive 34 minutes. On the 2nd lap, Dom Bruehwiler and Mike Bonner put the cat among the pigeons and their time was actually 20 seconds faster than 'A' grade for that circuit. According to Dom Bruehwiler, Mike Bonner who looked impressively fresh after the finish did all the work during the final circuit and deservedly took first place, finishing some 30 metres, to the good. Third rider to finish, Laurence Wynne, just beat home Bob Addy – though both were three minutes behind the winning duo. Ian Logan was fifth, ahead of a 'lunging Gary Boterhoven' who unfortunately 'lunged' at an imaginary line some 10 metres before the finish!

The largest field of the day that consisted of 17 riders competed in 'C' grade. Apart from a couple of early burn offs everyone seemed to be comfortable on the first lap. There must have been a sort out on the second and final lap for the field was well scattered. Riding his first event, Gerrit Oplaat, fresh out of Britain, was pleased with the circuit and also with the first place that he took in the final sprint. Tasmanian visitor Rod Harbridge also expressed his liking for the course and went away smiling after collecting his pay packet for second place. 'Home grown' Paul Wighton was third some 20metres behind, while Trev Robson kept up his record of never

having missed out on prize-money, when just beating Peter Maxwell.

The five competitors in 'D' grade saw an out of form Brian Paxman, by far the oldest rider in the race, dropped on the first lap, leaving the remainder to head for home. It was the final 100metres that decided the finishing places, and with light frame (both body and bike) it was Paul Crespi who took the laurels. Dave Nangle, whose residence was 200metres from the finish and familiar with every pothole on the course, rode strongly to take second place, while Sheona Clark, the sole female of the day, boosted her points in the Rose Preedy competition when coming third.

23 July, Graded Scratch Races, H. Hill

Fifty-five riders turned out on what looked like a pleasant day – blue skies, pleasant temperatures – but it was deceptive and

turned out to be perhaps the hardest day of the season. With a hard cross wind there was little help on the long legs of the course with the result that all groups moved well behind the expected schedule. 'A' grade, for example circled in 19m 25secs on the first lap when a time of about 16m 45s would have been expected, and in total they finished some 14mins behind schedule for the 88km, in 2hrs 29mins. Because of the cross wind echelons were formed, forcing some riders into the grit, perhaps accounting for the relatively large number of punctures and Trev Robson's dive into the bushes.

Though there were some attempts to get away, there seemed no enthusiasm in 'A' grade to leave the shelter of the bunch, with the result that it came down to a bunch sprint. This was taken by Doug Stewart who just beat a valiant attempt by George Miller to take him on the line. Paul Moke finished in his wake with a close concentration of riders close by led in by Marty Van Moorsel and Dave Berglund.

'B' grade saw a surprising turn of events on such a difficult day as a breakaway of three riders with five laps to go succeeded in staying away – and indeed to massacre the rest of the bunch by finishing a good five-minutes in front. Also unusual was to see 'sprinter' Gary Boterhoven forsake the shelter of the bunch to join Mike Bonner and Steve Marks in that breakaway. Steve found the pace a bit too hot on the final lap and finished alone some two minutes behind the other part of the trio, though still comfortably ahead of the peloton. In the sprint it was the experienced Gary Boterhoven who crossed the line first, though Mike Bonner impressed with his second breakaway success in two weeks. The bunch sprint was taken by Nick Smith by a good five metres, though it took the camera to determine that Bob Stephens had just pipped John Reed for fifth.

For the second week in a row, 'C' grade with 16 riders was the largest of the day. Discretion proved the better part of valour and they stayed together for the whole six

laps. Riding his second event of the season, it was Dave Brown who proved sharpest in the sprint when taking a comfortable win by a couple of lengths over Larry Ross, first-time rider Frank Norton, Trev Robson and the two Derek's. Larry who had claimed before the start that he was out of his depth in 'C' proved to the handicapper that his elevation from 'D' was warranted, and can thus expect to spend some time in those ranks.

'D' grade very surprisingly stayed close to their expected schedule and rode steadily for the 55km event. Both Brian Paxman and Des Williams punctured, while first time rider Paul Shepherd found the conditions a bit on the wild side, before he stopped with two to go. There was even money on the remaining members of the grade but it was the hard-working Sheona Clark who proved the surprise of the day when she got away on the final climb of Campersic Road to solo the 4km or so to the finish where she was a good 100-metres ahead of the group. Her win was a long time in coming and was popular with all at the line. Ernst Kreutzer proved his recent good form when he took out the sprint to finish in second place just ahead of Jack Iveson, Shane White and the rest of the mob.

A Grade – 88km (8 laps)

30 July, Fleet Cycles, 54km York Handicap

The mist hanging over the valley cleared just in time for the 45 riders who turned up at York, allowing them to ride in almost perfect conditions. Only 'casualty' was Eric Cox who mis-timed his start and rolled up two minutes after his four co-scratchmarkers left the timekeeper. With the group being timed at 48kph on the first flatish 28km leg to Beverley he decided to fight another day and was the only DNF. The first of two primes, on top of the hill at the 30km mark, was taken by limit marker Leo Enright, but by the second prime at 50km, scratch had caught the field after showing their strength on the hills on the Quarading Road. A bunch of ten riders entered the long finishing straight at Balladong Street but the sprint was spoilt for some when a cursing and shouting 'hoon' purposely slowed down in front of the bunch forcing riders to go around in the last 50metres. However, although the finish was compromised, the clear winner was Paul Brown off the one-minute mark. He beat scratchmen Doug Stewart and Paul Moke and fellow minute rider Dave Townson by a good length. Doug and Paul also took first and second fastest times – the circuit being covered in a fast 1hr 20mins. With prizes to 15th place and \$1,220 up for grabs, there were lots of happy faces at the finish, including Sheona Clark who took out the first lady's prize but who also finished first in her handicap group. Also worthy of mention was Gerrit Oplaat riding in his second race with us, who finished 16 places ahead of the next rider in the 9 minute group, and Bill Warren who was a regular with us a few years ago but who finished in 39th place after only four-weeks of training.

With trophies and a set of Fleet Cycles jerseys and nicks each, the first three riders celebrated heartily at the Crown Hotel where Fleet Cycles Manager (and competitor) Bruce Bussey presented the prizes – but ironically, Bruce missed out on a prize by two places! Bruce announced afterwards that Fleet had agreed to put on the race for the next three years - and with everyone enthusiastic about the circuit there should be a much larger field for next year's event.

Fastest Time 1hr 20m – Doug Stewart;
2nd fastest Paul Moke; 1st lady Sheona Clark. 1st prime 30km Leo Enright; 2nd prime 50km Doug Stewart.

Apologies to Ed Campbell for missing his placing - he was there somewhere near the front of the finishers but in the panic associated with the 'hoon' he was missed by the judges.

6 August, Graded Scratch, Chidlow 'B'

Temperatures proved perfect for the forty starters, but in the absence of our meteorological conjuror, Gary Boterhoven, there were a couple of light showers, though these didn't appear to worry anyone. Run on a fairly difficult 17km circuit there were a few who decided to retire gracefully before the end of the day, 'though Atilla Nagy and Alan Clarke had the excuse of mechanical troubles to explain their performance.

Despite the substantial rise in the road towards the finish, there was a surprising amount of pace exhibited, especially by 'A' grade. Each lap saw riders strung out in a crocodile and it was obvious that a lot of effort was being put into breaking up the field. However, there were still eight riders left at the end of lap four and this saw George Miller take advantage of his weight (or lack of it!) to power to the front and hold off a determined last effort by Paul Moke, Andrew Brierley and the rest of the close bunched group.

As with 'A', the 'B' group also started with 11 riders and finished with eight. Moving at about 90 seconds slower than the premier grade there was still obviously lots of effort being put into the action, but again the finish came down to a hard contested sprint. With 20 metres to go it looked as if Theron Benthien would prove triumphant but a huge kick by Dom Bruehwiler saw him lunge past for a quarter-wheel victory. Bob Addy was also 'almost there' when finishing a few centimetres behind Theron.

The 'C' grade field of twelve saw a few riders suffer on the first attacks that took place on the Old York Road, resulting in the field being split into two distinct groups. Jeff Usher proved too sharp in the final six-up sprint to take the win, while riding only his second race, new member Frank Norton impressed when finishing

only a length or two away and a further wheel in front of Derek McVickers and Paul Wighton. For the first time in many a moon Trev Robson finished outside the money and rumour has it that he wasn't allowed indoors when he returned home.

Despite the severity of the course no-one in 'D' grade appeared stressed, though as with 'C' there was an early split as three riders, Denis Robinson, Dave Nangle and Sheona Clark moved ahead of their compatriots. President, Kevan Logan, decided after two laps to call it a day but was pleased to last as long as he did on his comeback ride, while Brian Paxman and Leo Enright ploughed a lonely road home. Denis put his head down in the last 100metres and crossed the line a couple of lengths ahead of local hills rider, Dave Nangle, while popular Racing Secretary, Sheona, received enthusiastic applause as she finished in third place.

19 August – 67km Handicap, Collie – Lowden.

Report from the field by Kevan Logan:
Limit started in driving rain which did not let up until we reached Mumbalup, in fact, at speed, down hill you could not see, you could only see the white line in the middle of the road. The mystifying point of the day was that it poured down despite having we had two Met. men Gary Boterhoven & Dave Bebee riding!! The last three quarters of the race saw mild conditions. Temp around 14 - 16 degrees C, not much wind. No long nicks but a few long sleeved tops were seen.

The only injury of the day was sustained by Valerie McVickers who missed a step and rolled her ankle and was treated by Anne Rossiter and Dr. Quatrain. Valerie

was last seen in the back seat of a large V-dub with leg up, bandaged and iced being driven out of Collie by a not-so-well Derek who had been too sick to start the race – not a good day for the McVickers! Hope both recover quickly, as also Fran Watson who was down to ride but who crashed at the Speed Dome the night before the Collie event.

Apologies to sponsors Stan Fennell and The Crown Hotel, for missing their names off the final flier.

27 August, Peel CC Classic 79km Handicap, Casuarina

With over \$1,000 in prize-money on offer, the 59 hopefuls pulled out all stops to get first to the line on this relatively flat 15.9km circuit. Conditions were bright and sunny and though there was hardly a breeze for much of the race on the finishing straight, there were reports of hard conditions further around the course. Scratch suffered casualties during the first lap, George Miller hitting the deck, to later retire with a loose crank and Paul Brown feeling out of sorts. This left scratch with only four riders but they were still ahead on time by about 30 seconds after two laps. However, the 2m 30sec group got their act together and picking up the five and eight minute groups they began to pull away, with the fastest time going to that group by the end of the race. All divisions rode well together and at the start of the final lap there were still some gaps to close, but all came together with a couple of km to go resulting in a hectic dash to the line by over 20 riders, with most others, including scratch, finishing within 3m 30s of the winner. Taking honours and fastest time was Eric Cox, closely followed by Dave Berglund, Phil Diesel of the promoting club, Bryan Williams, Gary Collet and new rider Graham Riley. Gerrit O’Plaat, Dave Townson and Gary Boterhoven took the next three places and thus mopped up the rest of the prize-money.

Fastest Time: Eric Cox 1hr 49m 50s

10 September, Graded Scratch, Dog Hill, Baldivis

Another good day for riding despite a fairly hard wind that dissuaded all but the most venturesome to stay in the shelter of the bunch. Bravest man of the day was Steve Ware who broke away on lap one in 'C' grade only to be brought back with a lap to go. 'A' grade also saw Eric Cox and Chris Glasby make a two-lap break that was only caught on the last bend entering the straight, while in 'B' grade Mike Bonner, Bob Addy, Duncan Farrow and Mick Russell opened a gap with just over a lap to go that was never bridged. Dave Townson punctured on lap one, only to persuade first time rider Alan Taylor that he would be better served by handing over his wheel and watching the finish from the comfort of a seat near the line! 'D' grade seemed to ride comfortably together for the whole of the race and left it to the finishing sprint to determine places. Leo Enright valiantly gave up his 2nd place prize to Ray Craig who had probably persuaded Leo that he had been harshly treated by the judges who had placed him third. However, the camera proved the eagle eyes of the judges had not been mistaken – so Ray you owe Leo \$5 and a drink at the coffee shop! Apologies for the limited number of placings but a computer hitch prevented an extended finishing list – though the all-important first six places proved no problem.

After Race Etiquette

To all who rush off immediately after they have finished racing and to those who shoot off without informing anyone when they have won prizes.

It would be greatly appreciated if you could stay behind for a few minutes to acknowledge the prize-getters, and if you are a prize-getter to acknowledge those who put an effort into organizing the races. As sponsors are hard to come by we would ask especially that people stay behind on those occasions when they support our events. We recognise that some folk have commitments such as getting back to work but others appear to have little or no excuse other than they want to get away. If the officials adopted the same attitude there would be no racing!

Rose Preedy Points Competition

Thanks to points tallier extraordinaire, Dom Bruehwiler, herewith the points score up to and including the 10 September. Looks like being a tight finish and with five events yet to be run, young George will have to pull out all stops to stay in front.
